

Hygiene Policy

It is very important to prevent the spread of germs and illnesses that hygiene procedures are in place and strictly adhered to.

Children are reminded to wash their hands after going to the toilet, touching animals and playing outside. They must also wash their hands before eating any meals or snacks.

We will assist the children in hand washing, ensuring that they are washing and drying them correctly.

We will provide each child with their own clean towel everyday (or may provide in lieu of a towel, disposable paper towels).

We will assist children with wiping their noses when they have colds and try to teach them how to blow their noses. We will explain to them the importance of safely throwing away dirty tissues to prevent the spread of germs. We will also encourage them to put their hand over their mouths when they cough.

We will not mind a child who has had an upset stomach in the last 48 hours.

We will disinfect the changing mat between children.

We will follow strict hygiene routines in my kitchen, ensuring our fridge is at the correct temperature and that food is stored correctly in it. (at minus 5C or below in the fridge compartment, and minus 20C or below in the freezer section. Our fridge has a digital display showing the current temperatures of each section).

In order for us to carry out these procedures effectively we will need you to provide us with enough resources, for example nappies, labelled cream, spare clothes for the children etc. We also request that you let us know if your child is feeling or has been unwell.
